

New Cosmetic Development

A new generation of semi peel off wraps containing 100% pure botanicals...

The entire Semi Peel Off line is easy and convenient to use. It does away with the need for plastic and heating blankets as well as showering after the body wrap treatment.

(custom by request)

USAGE

Dosage:

For 24 oz (750g) of paste: Mix 8 oz (250 g) of powder with 16 oz (500 g) of water at 140°F (60°C).

Diluting the product:

Pour the water quickly onto the measured powder. Mix vigorously until a smooth creamy paste is obtained. Important : Water at 140°F (60°C) must be used for dilution of the Semi Peel Off. The paste will have cooled to 105°F (40° C) by the time it is applied to the body.

Application:

Apply immediately.

Length of treatment:

15 minutes.
